

WALTER GIOVANNY CUADROS RINCÓN

TECHNICAL PRODUCT OWNER PROJECT MANAGER

• ABOUT ME

I connect the 'what' of the business with the 'how' of the code, leading cloud & AI products from rough idea to stable production with calm leadership, sustainable architectures and a genuine care for people, quality and learning.

• EDUCATION

Unidades Tecnológicas de Santander - 2018

Electronic Engineer

University of the Andes -2025

Master of Software Engineering

Universidad Autónoma de Bucaramanga - 2022

Programming Technician

SENA - 2019

Software Programming Technician

• EXPERIENCE

DEVELOPER FULLSTACK

Smart Data Automation, Ago 2019 - Apr 2021

I worked as a Fullstack Developer building tailored web applications with PHP CodeIgniter and JavaScript. I contributed to key modules, optimized MySQL structures, and ensured clean, maintainable code.

FOUNDER AND MANAGER

TecnimasterCol, Ago 2020 - Jul 2022

As founder of TecnimasterCol, I led a full-service operation supported by a platform I designed and developed. I managed daily operations, implemented SEO strategies, and structured the business end-to-end. This experience expanded my leadership, product thinking, and execution capabilities.

BACKEND DEVELOPER

Aplyca, Apr 2021 - Apr 2022

At Aplyca, I maintained and enhanced enterprise platforms built with Symfony and Ibexa DXP. I delivered new features, resolved incidents efficiently, and collaborated closely with technical teams. The role strengthened my skills in long-lifecycle systems and enterprise-grade software environments

TECHNICAL PROJECT MANAGER

Aplyca, Apr 2022 - Present

As Technical Project Manager and Product Owner, I lead support operations, coordinate teams, and drive delivery for enterprise platforms. I manage incidents, guide technical decisions, and maintain clear client communication. This role sharpened my leadership and strengthened my end-to-end project execution.
